FLABBY FELLOWS

WHO WANT TO BUILD UP
THEIR BODIES
WILL FIND THE
"ONE THING NEEDFUL"

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimilation by the stomach and other organs of digestion and nutrition. Food does not feed when the stomach is "out of order." The result is, weak muscles and flabby flesh. "Golden Medical Discovery" heals diseases of the stomach and digestive and nutritive system. It works with Nature to make manly muscle and form firm flesh. In a letter received from A. D. Weller, Esq., of Pensacola, Fla., he states: "I have, since receiving your diagnosis of my case, as stomach trouble and liver complaint, taken eight bottles of 'Golden Medical Discovery' and must say that I am transformed from a walking shadow (as my friends called me) to perfect health."

AGASSIZ.

In the course of a journey, some years after the end of the civil war, from Winchester, Va., to Ithaca, N. Y., I was seated in the car by the side of a large man, of singularly pleasing and noble appearance. Approaching from conversation that I lived in Winchester, in the beautiful Shenandoah Valley of Virginia, he evinced great interest and inquired about the people, the town and the surrounding country. I told him that Winchester, from its strategic situation, had been the gateway entrance of the northern invading armies; and that, during the whole period of the war, the tide of battle had surged back and forth, through the streets and over the devoted tower; whose people, notwithstanding the widespread devastation and ravage of the country around, had fed and nursed and ministered to the sick and wounded of the military operations in Pennsylvania, and in Maryland and Pennsylvania. I told him of the destitution and distress of our people, caused by the ruin of the currency and their bank stock; the burning of their barns, mills and supplies; the loss of their cattle, horses, hogs and fowls; the destruction of their fences and forests, and the loss of their wagons and other implements and their accustomed farming labor.

He listened intently, but said nothing, and moved away. After some hours, he came back, and said: "I am very glad to hear that you are so well. I want to tell you how deeply I sympathize in the sorrow and sufferings of your people; and how earnestly I hope that a time will repair the injury inflicted upon their beautiful country, and restore their prosperity." The words were simple, but the manner and tone of tender sympathy and sincere kindness are indescribable. The tide of time has rolled by more than thirty years since the casual interview, revealing joys and sorrows; but there is nothing in their retrospection more pleasing than the recollection of those words, and the contemplation of whose benign character exalts the just estimate of our common humanity. T. T. FAULKNER, St. Louis, Mo., Jan. 24, 1901.

HICKS' FOR MARCH.

The first and second days of March will be colder and clearing in western extremities. A storm area will be central in the Mississippi Valley and the Atlantic Coast regions on the first and second. The higher barometer and sharp cold following this storm will subside, but from the 5th to the 7th decided storm conditions will return. Within 48 hours of 5 o'clock p. m., on the 5th no one should be surprised by tropical storms with possible hurricanes on the south, with counterpart of a boreal storm of rain, wind and snow from the northwest. From the 9th to 12th is a regular storm period with abnormal electrical phenomena, such as auroras, electric winds, charging objects on the earth's surface with electricity, thunder storms and volcanic disturbance; these things are not to be regarded as dangerous, or as an absolute and unfailing certainty; but correct records will prove that such phenomena are at a maximum, taking the globe as a whole one year with another, on and about the 11th of March. Of course, storms of rain, wind and snow—this time with destructive sleet added—will be natural at this time. Not only are we near the center of the vernal equinox, but we are also near the center of the Jupiter period, with a Mercury period central on the 16th, a Venus period on the 24th. The Venus perturbation, which is a disturbing factor at the crisis in our March disturbances. The 15th to 17th will bring unsettled weather which will scarcely subside till what we believe to be the greatest storm period of the month from the 19th to 25th. A look at the storm chart shows that Jupiter, Earth, Venus, Mercury, Vulcan and Moon, all combine their perturbing forces at this time. The moon will be new in perigee on Wednesday the 20th, within a few hours of its passage over the equator on the 19th and of the sun's passage of the equator on the 21st.

The last storm period runs from the 26th to 29th. March closes fair and cool. As to the general outlook for the spring and summer, we believe that a sufficiency of rainfall will visit almost the entire country during the spring months.

Inauguration Day, Washington, D. C. March 4th.

For above occasion southern Railway will sell tickets from entire territory in the South to Washington on one fare for the round trip.

March 1st to 3rd inclusive, valid for return on March 9th. Extra coaches will be attached to regular trains to provide ample facilities for all who may avail themselves of these low fares.

FINE LOT GATOS PRUNES for sale by J. C. MILBURN.

The Mother's Favorite

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and all cures. It is intended especially for coughs, colds, croup, and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Richard Gibson, druggist.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Ely's Liquid Cream Balm. Price, including the spray tube, is 75 cts. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions, but changes them to a natural and healthy character. Ely Brother, 56 Warren Street, New York.

Recent experiments show that all classes of foods may be completely digested by a process called Kodol Dyspepsia cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and it always gives instant relief.
